Issue #	Heuristic #	Description	Rating		Evaluator: Gaetano Prudente, Seat 'n' Eat
1	H8	"Favorites": it would be better to have a crossed out heart, so i do not confuse myself thinkig that i am deleting the exercise	0		
2	H1	"Statistics": i would like to have details about each one of my tests (and the score of the exercises in that test)	3		
3	H2	"Profile": i would like to be able to edit my informations or my profile image, so i'd like to see an edit button	2		
4	NH	"Test": i have no control on the tests, i would like to be able to choose between a random test, a suggested test (by the system algorithm based on my progress) and the list of available exercise	4		
5	H2 / H4	"Test": the name in the home may be confusing about the purpose, it could a test for the app functionalities and for the hardware	4		
6	H7	"Test": it would be good to be able to compose my test and select which and how many exercise i want on my test	2		
7	H8	"Focus Exercises": i want to see the info buttons even if there is a track playing	1		
8	NH	"Focus Exercises" i have not much control on the track, it could be useful in terms of control to be able to pause (and not only stop the track), to be able to manage to playback speed and the manage how many times the loops are played	3		
9	H4 / H8	"Focus Exercises": the modal about the info focus exercise should be consistent with the modal in the voice exercise screen in terms of dimension and also about the info structure (for example: title, description, duration, difficulty level, ...)	2		
10	NH	"Voice Exercises": it would be nice to have a manually movable progress bar too, in order to manage the actual progess of the exercise and actually have a control on the progress, right now if i want to go back or skip some parts in the exercise i can't and i have to restart it. It would also be nice to have control on the playback speed, so i can practice according to my needs	4		
11	H8	"Voice Exercises": on the pause screen of an exercise i would like to see the info button and not only on the "start" of the exercise screen	1		
12	H4 / H8	"Voices Exercises": the modal about the info focus exercise should be consistent with the modal in the voice exercise screen in terms of dimension and also about the info structure (for example: title, description, duration, difficulty level, ...)	2
